

THE MEDICAL AND AMBULATORY EQUIPMENT

PURPOSE: The healthcare sector is one of seven main directions in which the programs and projects of the corporate social responsibility are implemented.

The purpose is to strengthen and develop the capacity of the healthcare in the area of the operation.

PROJECTS AND PROGRAMS: The company financed and implemented specific projects and programs for the healthcare sector in the capital city, province and the sum since 2006 as part of the social responsibility. For example, the company joined with Action Mongolie NGO and handed over a comprehensive laparoscopic surgery device to the third Shastin hospital in Ulaanbaatar, maternity ward "Orgoo" and the general hospital of Dornogovi province and provides the financial support for sending women's laparoscopy physicians and specialists every year to the hospital in the French city of Lyon for a short term practice. The company also supplied vital medical equipment such as emergency vehicles, mobile beds, mattresses, shelves, oxygen concentrators, wall ventilations and special purpose freezers to the general hospital of Dornogovi province and to hospitals in Sainshand sum, Zuunbayan bag and Airag sum in 2017 and 2018.

The company invested a total of 900 million MNT to the healthcare sector.
